PROFESSIONAL SUMMARY

Java Full Stack Developer with experience coordinating cross-functional teams as a Scrum Master. Known for a people-centered approach that fosters empathy, assertive communication, and effective collaboration, applying Agile practices to keep teams organized and focused on results. Looking to join a development team where I can help build scalable, high-quality solutions, bringing strong attention to detail to every release. Motivated by working closely with my team to meet business goals and drive every project to success.

TECHNICAL SKILLS

Java | JavaScript | Python | SQL | Spring Boot | Bootstrap | MySQL | HTML5 | CSS3 | Git | GitHub | Jira | Scrum | Agile | Object-Oriented Programming | Generative AI (prompt engineering)

SOFT SKILLS

Leadership | Assertive Communication | Goal-Oriented | Proactivity | Teamwork | Adaptability | Creativity | Empathy

ACADEMIC PROJECT

Front-End Developer | RunUp Hackathon (Oct 2026)

- Built the responsive catalog page for a sporting goods e-commerce site using JavaScript, HTML, CSS, and Bootstrap to improve the user experience.
- Used a branch-based GitHub workflow to integrate code collaboratively with the team.

WORK EXPERIENCE

Scrum Master | "Ajolote y Grulla" (May 2026 – Jul 2026)

- Built a Japanese stationery e-commerce site for a small business in collaboration with a team of 9, using Java, Spring Boot, MySQL, JavaScript, HTML, CSS, and Bootstrap; delivered in 8 weeks (3 sprints).
- Facilitated the team's adoption of Scrum, ensured Agile ceremonies were consistently followed, and fostered self-management and a collaborative culture.
- Managed the Product Backlog in Jira and GitHub, setting clear priorities to streamline development iterations.
- Created the e-commerce Design Guide, including wireframes, to guide front-end development.

Senior Post-Production Editor | Imagen Television (Jun 2016 – Aug 2026)

- Led the integration of Imagen Television's and Claro Video's post-production workflows during the 2026 World Cup, aligning processes across both companies and ensuring the show aired successfully on very tight deadlines.
- Standardized reusable templates for the most common video formats, doubling productivity (from 20 to 40–45 videos per day).
- Coordinated a 5-person cross-functional team with daily deliverables under tight deadlines, keeping morale high by anchoring the work to project goals.
- Performed quality control on all content before broadcast, catching and correcting errors to meet broadcast standards.
